Delegated Regulation (EU) 811/2013

|                                                                                                  |                                  |
|--------------------------------------------------------------------------------------------------|----------------------------------|
| Supplier name or trademark                                                                       | <b>Haier</b>                     |
| Model identifier                                                                                 | <b>HU162F20AHYA / AW122HVGHA</b> |
| Seasonal space heating energy efficiency class (average climate conditions - Low-temperature)    | <b>A+++</b>                      |
| Seasonal space heating energy efficiency class (average climate conditions - Medium temperature) | <b>A+++</b>                      |
| Rated heat output (average climate conditions - Low-temperature)                                 | <b>9 kW</b>                      |
| Rated heat output (average climate conditions - Medium temperature)                              | <b>7 kW</b>                      |
| Seasonal space heating energy efficiency (average climate conditions - Low-temperature)          | <b>190 %</b>                     |
| Seasonal space heating energy efficiency (average climate conditions - Medium temperature)       | <b>151 %</b>                     |
| Annual energy consumption - final energy (average climate conditions - Low-temperature)          | <b>3 684 kWh</b>                 |
| Annual energy consumption - GCV (average climate conditions - Low-temperature)                   | <b>13 GJ</b>                     |
| Annual energy consumption - final energy (average climate conditions - Medium temperature)       | <b>3 689 kWh</b>                 |
| Annual energy consumption - GCV (average climate conditions - Medium temperature)                | <b>13 GJ</b>                     |
| Sound power level (Indoors)                                                                      | <b>42 dB</b>                     |
| Specific precautions                                                                             | -                                |
| <b>Additional information</b>                                                                    |                                  |
| Rated heat output (colder climate conditions - Low-temperature)                                  | <b>9 kW</b>                      |
| Rated heat output (warmer climate conditions - Low-temperature)                                  | <b>9 kW</b>                      |
| Rated heat output (colder climate conditions - Medium temperature)                               | <b>7 kW</b>                      |
| Rated heat output (warmer climate conditions - Medium temperature)                               | <b>7 kW</b>                      |
| Seasonal space heating energy efficiency (colder climate conditions - Low-temperature)           | <b>158 %</b>                     |
| Seasonal space heating energy efficiency (warmer climate conditions - Low-temperature)           | <b>262 %</b>                     |
| Seasonal space heating energy efficiency (colder climate conditions - Medium temperature)        | <b>126 %</b>                     |
| Seasonal space heating energy efficiency (warmer climate conditions - Medium temperature)        | <b>188 %</b>                     |
| Annual energy consumption - final energy (colder climate conditions - Low-temperature)           | <b>5 526 kWh</b>                 |

|                                                                                           |                  |
|-------------------------------------------------------------------------------------------|------------------|
| Annual energy consumption - GCV (colder climate conditions - Low-temperature)             | <b>20 GJ</b>     |
| Annual energy consumption - final energy (warmer climate conditions - Low-temperature)    | <b>1 816 kWh</b> |
| Annual energy consumption- GCV (warmer climate conditions - Low-temperature)              | <b>7 GJ</b>      |
| Annual energy consumption - final energy (colder climate conditions - Medium temperature) | <b>5 369 kWh</b> |
| Annual energy consumption - GCV (colder climate conditions - Medium temperature)          | <b>19 GJ</b>     |
| Annual energy consumption - final energy (warmer climate conditions - Medium temperature) | <b>1 962 kWh</b> |
| Annual energy consumption- GCV (warmer climate conditions - Medium temperature)           | <b>7 GJ</b>      |
| Sound power level (Outdoors)                                                              | <b>66 dB</b>     |

Model placed on the Union market from 01/01/2024

**EPREL registration number:** 2330579
